safer streets initiative

Private Hire and Hackney Carriage Driver Safety Portal

### Who Are We?

#### The first of its kind

A complete online solution for multi directional information sharing between Private Hire and Hackney Carriage Drivers, Taxi Operators, Police Officers, Enforcement Officers & VOSA.

Taxi Watch™ has already been endorsed by a number of Local Authorities and Police Authorities. They have indicated to us, how much they appreciate the value of a method of internet based communication across the whole Private Hire and Hackney Carriage sectors of the taxi industry.

All of the authorities who have seen the portal have expressed a keen desire to feature within it, each taking space to relay information, advice and guidance for drivers and operators.

Our aim is to achieve national coverage with Taxi Watch, giving every Council, Licensing Office, Police Authority, Taxi Operators and most importantly, individual Taxi Drivers a voice which will have a platform across their own area and across the country.

#### • Driver and Passenger Safety
